Migration Manager Updates

*   New features over the last year.

*   Important topics about Migration Manager.

Dave Parlante - Americas/EMEA

Gokul Pillai - Asia

Migration Manager Latest Features.

Skip Scans in Box due to API calls.

Google Forms now supported.

Migration Manager Agent V 2.3 - better throttling management **for FileShare**.

File size now 250GB for all content migration types.

Google File Versions now supported.

Email notifications now supported (**Self-Led now supported**).

Migration Manager Latest Topic.

Important: domain mapping for Box, Dropbox or Google Drive migrations requires coordination with MST

05/29/2025

Important: If you are planning to carry out domain mapping for Box, Dropbox or Google Drive migrations, please contact the Migration Support Team (MST) **before proceeding**. Domain mapping requires coordination with MST to ensure proper configuration and permissions mapping.

Close

	A	B
1	**Source**	**Destination**
2	user01@contoso.	user01@contoso.com
3	user02@contoso.	user02@contoso.com
4	contoso.com	contoso.com

Cloud to Cloud migrations only impacted.

Domain mapping feature within Identity Mapping (permissions mapping) is non-funtional in Migration Hub.

Migration Hub vs. Migration Manager - Domain mapping supported in Migration Manager only.

Reach out to MST for **FTC Led migrations that need to utilize Domain Mapping for a supported setup.**
